Complaints Policy

Policy

- It is the policy of Carricks Brook that we encourage staff, residents and their families to use the complaints procedure to its fullest.

What is the complaints procedure for:

The complaints procedure is there to help us improve the service we provide. You should use the complaints procedure to tell us about any aspect of the service with which you are unhappy, or feel could be improved.

Who can make a complaint:

Anyone can use the complaints procedure to make a complaint: residents, staff, visitors, relatives and health professionals.

However, staff employed by Carricks Brook should use the Company's internal Grievance Procedure, should they wish to complain about another member of staff.

How to make a complaint:

You can make a complaint in writing (by letter or email) or verbally (by telephone or in person). Carricks Brook has a complaints form which you can use if you wish. There are two different types of complaint: formal and informal.

Informal complaints are usually minor. We would encourage you in the first instance to speak directly with the Team Leader in charge, who may be able to resolve the complaint immediately. Informal complaints are not usually recorded

Formal complaints should be directed to the Registered Manager, although you may wish to ask a member of staff to help or forward a complaint on your behalf.

What can you expect to happen now:

All formal complaints are dealt with by the Registered Manager.

All complaints will be acknowledged within three working days, and an acknowledgement letter provided to include who will investigate.

We aim to respond in writing to formal complaints within 28 working days. The response will include information about any action taken as a result of your complaint.

A complaint must be made no later than 12 months after the date that the event occurred. The time limit will not apply if Carricks Brook is satisfied that the complainant can give good reason for not making the complaint within that time limit and, despite the delay, it is still possible to investigate the complaint effectively and fairly.

Anonymous complaints will be investigated. However, being anonymous, this may hinder the investigation or make it impossible to come to a positive conclusion.

We will only accept complaints from a representative under the following conditions:

1. where we know that the resident has consented, either verbally or in writing; or
2. where the service user cannot complain unaided and cannot give consent because they lack capacity within the meaning of the Mental Capacity Act 2005; and
3. the representative is acting in the resident's best interests, for example, where the matter complained about, if true, would be detrimental to the resident.

If you are unhappy with the response you receive, or if your complaint concerns the Registered Manager, we would encourage you to contact the Directors of Carricks Brook to investigate your complaint.

If you are still unhappy, then you should contact the Care Quality Commission, our external regulator, or the Local Government Ombudsman (LGO); this is a free, independent service.
